

INTER-LAKES BASES INTRODUCES THEIR SAFETY ENCLOSURE LINE

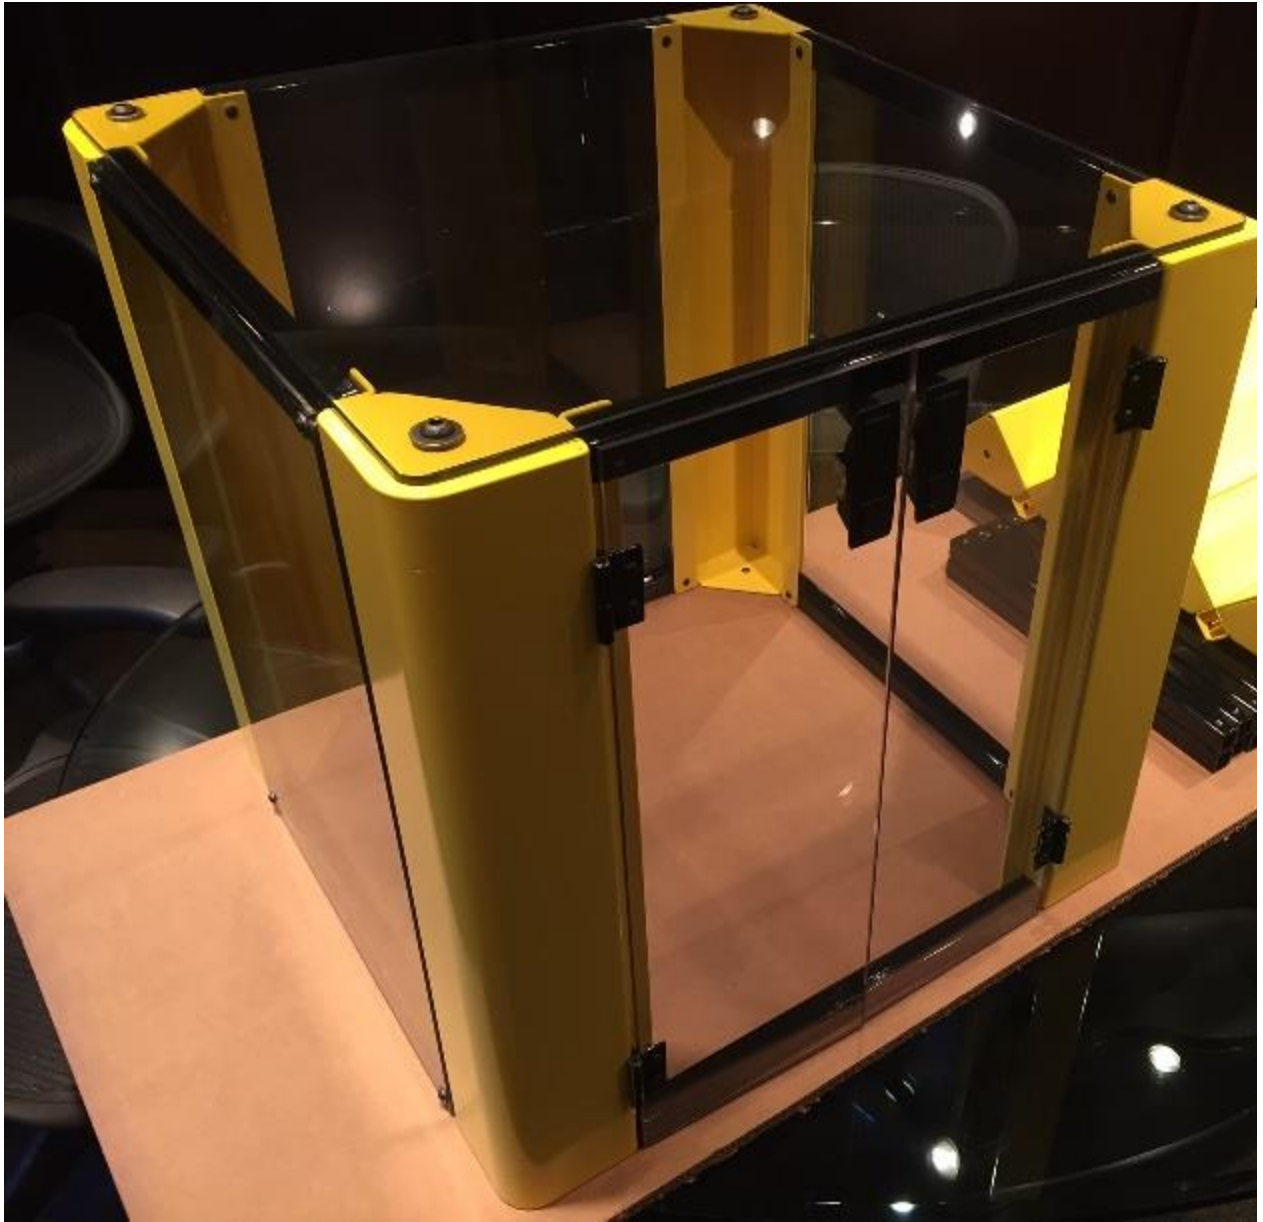

In response to the manufacturing and assembly industry's need for a more versatile and customizable machine base enclosure, Inter-Lakes Bases, Inc. has developed their "Safety Enclosure" line.

The line is currently available in four standard sizes with a standard height of 48":

- > SE-24 (24" x 24")
- > SE-36 (36" x 36")
- > SE-48 (48" x 48")
- > SE-60 (60" x 60")

But with Inter-Lakes Bases' skills in fabrication, machining and custom designing, they can manufacture a safety enclosure to your exact specification.

Some options available for the safety enclosure line include:

- Clear Lexan panels/tops/sides
- Clear Lexan lift-off doors
- Custom powder coat finishes
- Custom sizes are quoted on request

For more information on Inter-Lakes Bases' Safety Enclosure line, or any of the other fine products they manufacture, such as machine bases, weldments, frames, plates and dial plates, visit their website at: www.interlakesbases.com.
