

Modern manufacturing processes often require the use of materials that disseminate noxious or toxic gas fumes, vapors, odors, particulates and particles into the workplace. At Fumex, their focus is to provide equipment that captures these pollutants at the source, ensuring workplace health and preventing their release into the outside air. Fumex industrial air filters, fume extractors and dust collectors have proven their value over and over again.

Fumex products include the following:

<p>THE F SERIES FOR FUME EXTRACTION</p> 	<ul style="list-style-type: none"> • Nine styles available • Quiet operations - < 60 dBA • Digital controls for ease of operation • Variety of footprints and sizes • Many options for pre-filters, HEPA filter and gas/odor filters • Filters are of dustless construction, suitable for all environments
